[ygmu.vercel.app/](https://maliki-portfolio-ygmu.vercel.app/)

Education

PhD in Engineering

Urban Innovation, Yokohama National University, Japan (2023)

Master of Engineering

Urban Innovation, Yokohama National University, Japan (2020),

Master's Degree in Road and Infrastructure Design, Institute for Water and

Environmental Engineering (2iE), Burkina Faso (2018)

Bachelor of Civil Engineering, International Institute of Water and

Environmental Engineering (2iE), Burkina Faso (2015)

HONORS AND AWARDS

- Certification of excellence - JICA
- Certificate for the best presentation award - CREST 2020 (Construction Resources for Environmentally Sustainable Technologies)

SOFTWARE

- Microsoft Office
- Open Project , AutoCAD, PLAXIS, ORIGIN, Autodesk Fusion 360, ALIZE, RDM6 GeoStudio, AutoCAD

LANGUAGES

- Fluent French
- English (Proficiency)
- Moaba, Hausa, Ewe, Japanese (B2)

SUMMARY

Civil and Geotechnical Engineer with over 8 years of experience in infrastructure development, geotechnical design, and project supervision across West Africa and Japan. Proven leadership in multidisciplinary teams, with strong expertise in foundation engineering, drainage systems, and sustainable construction materials. Experienced in international collaboration and technical reporting.

MAIN QUALIFICATIONS

- Over 8 years of technical experience in design, rehabilitation of diversified civil engineering projects
- International exposure through training, research and technical missions (Japan, West Africa)
- Proven ability to manage multidisciplinary teams and coordinate complex civil engineering works in rural and sensitive areas
- Excellent knowledge of concrete structures, embankments, hydraulic works, slope stabilization and materials testing.
- Provision of consulting services for road and dam projects (foundation assessment, stabilization design, slope protection)

PROFESSIONAL EXPERIENCE

Consultant in Infrastructure and Regional Development - Japan International Cooperation Agency (JICA)

Abidjan, Ivory Coast | May 2024 - Present

- Supervision and coordination of infrastructure projects (roads, corridors, urban mobility) in several West African countries (Togo, Burkina Faso, Ivory Coast).
- Technical and financial management of projects, including formulation, monitoring and evaluation.
- Supervision of local teams and coordination with regional stakeholders (UEMOA).

Assistant Researcher in Urban Innovation - Yokohama National University

Abidjan, Ivory Coast | Sept. 2023 - Feb. 2024

- Carrying out triaxial tests and soil stabilization studies to prevent liquefaction phenomena.
- Training and supervision of students on geotechnical testing methods and soil analysis.
- Analysis and interpretation of experimental data for the design of structural solutions.

PhD student - Yokohama National University

Abidjan, Ivory Coast | Oct. 2020 - Sept. 2023

- Advanced studies on soil stabilization to improve resistance to liquefaction around underground pipelines and manholes.
- Carrying out geotechnical tests (physical and mechanical test included triaxial tests) and interpreting data for the design of structural solutions.
- Development of innovative methods using ash-based stabilizers to reinforce embankments.

HOBBIES

- Writing technical reports and contributing to scientific publications.
- Football (playing and watching)

Civil Engineer - EDF (Djantchieme Company and Worker Training)

Dapaong, Togo | Sept. 2015 - Sept. 2020

- Supervision of earthworks, leveling and compaction to ensure compliance with technical standards
- Coordinated dredging work to restore water storage capacity for agricultural and livestock purposes
- Carrying out road maintenance work: reprofiling, resurfacing and elimination of critical points on 20.3 km of rural roads.

Internship - intern and assistant to the test operators

Ouagadougou, Burkina Faso | Oct. 2014 - May. 2015

- Introduction to various laboratory test for soils analyses (Granulometric analysis (GSA, Atterberg Limits Test, Methylene Blue Test, Sand Equivalence Test for Concrete Mix Design, Los Angeles Abrasion Test, Cleanliness Tests, Mechanical Tests, California Bearing Ratio (CBR) Test,

MALIKI OTIEBOAME DJANDJIEME PhD

PhD & Professional Engineer in Geotechnical Engineering

CERTIFICATION

- Certification of completion ABE - Japan International Cooperation Agency (JICA)
- Certificate of Participation for TICAD 7 - Ministry of Foreign Affairs of Japan
- Certificate of JICA Development Studies Program (JICA-DSP) 2018 - Japan International Cooperation Agency

SCIENTIFIC PUBLICATIONS:

- Fundamental Study on the Mechanical Characteristics of Sand Treated by a PS Ash-Based Improving Material | [springerprofessional.de](https://www.springerprofessional.de)
- Djandjieme, MO, Hayano, K., Yamauchi, H., & Maqsood, Z. (2022). Swelling and strength characteristics of sand treated with paper sludge ash-based stabilizer. Construction and Building Materials (IF=7.4), 341, 127849.

Internship - intern at CECO BTP

Lome, Togo | June. 2013 - Sept. 2013

- Cement-stabilized silty sand foundation layer
- Asphalt coating
- Water retention construction methods according to its designs and use

Internship - intern at CECO TDE Togo

Lome, Togo | Aug. 2013 - Oct. 2013

- Existing water networks evaluation
- Proposition of solutions to resolve water loss problems associated with road construction in Agoè

TRAINING

- December 2023: **Doctorate in Philosophy in Engineering** Yokohama National University-Urban innovation (YNU)
- September 2020: **Master of Engineering in Geotechnics and Urban Innovation** Yokohama National University-Urban innovation (YNU)
- June 2018: **Master of Engineering in Civil and Hydraulic Engineering** International Institute of Water and Environmental Engineering (2iE Institute) Ouagadougou
- February 2016: **Bachelor's degree in water and environmental engineering** International Institute of Water and Environmental Engineering (2iE Institute) Ouagadougou
